

ZÜND ITALIA

ZÜND SHOWS G3 AT GRAFITALIA 2008, THE REVOLUTIONARY *ALL IN ONE* DIGITAL CUTTING SYSTEM, ABLE TO MANAGE THE WHOLE GRAPHIC PRODUCTION WORKFLOW

Zünd, leading world producer of digital cutting systems, represented in Italy by the official distributor **Zünd Italia** in the graphic market and by **Logics** for the packaging market, shows G3 at Grafitalia 2008, the most expected third generation of multitasking cutting and routing plotters. On the Zünd booth, highlights on the most effective and flexible solution to manage the entire production workflow, thanks to the possibility to configure the plotter on the specific production needs.

“G3 is the result of 20 years of experience in digital flatbed cutting technology” - says Matteo Redaelli, Logics' managing director - “In the latest plotter's generation development, it has been taken in great importance the workflow control concept, a sequence of operations that need to be seen as a global solution. On this concept is based the revolutionary G3, a plotter that is not only a machine, but a concentrate of our best state-of-the-art technologic solutions. The system can be equipped with different heads, tools and options, able to handle any kind of job; no need to have more finishing devices. Beside that, thanks to the automatic loading / unloading systems, G3 requires minimum operator's attention, with considerable time and money savings”.

At Grafitalia, G3 will prove all its versatility, modularity, productivity and user friendliness. On the Zünd booth, visitors will be shown how G3 can fit graphic, packaging and screen printing applications. One more confirmation for the *all in one concept* that inspired the latest generation of multitasking flatbed cutters “made in Switzerland”.
